

Rose Enos

CONTACT INFORMATION	Rose Enos (she/her) University of California, Irvine	enosb@uci.edu roseewater.com
EDUCATION	B.S., Computer Science , University of California, Irvine – Specialization in Intelligent Systems – Campuswide Honors Collegium – Information and Computer Sciences Honors Program (planned) – Honors Thesis: Economic Challenges, Social Support, Cultural Formations: A Mixed-Methods Exploration of Behavioral, Emotional, and Cognitive Learning Engagement among Continuing Computing Students <i>Advisor: Michael Shindler</i> B.S., Mathematics , University of California, Irvine – Specialization in Pure Mathematics – Honors Program in Mathematics – Honors Thesis: <i>TBD</i> <i>Advisor: TBD</i> High School Diploma , West Campus High School, Sacramento, CA <i>Valedictorian</i>	June 2027 June 2023
RESEARCH INTERESTS	Computing education, equitable and inclusive teaching, human–AI interaction. One major theme is teaching to computing students’ economic, social, and cultural backgrounds by identifying potential points of tension (e.g., learning engagement) and adapting student feedback into teaching practice (e.g., asset-based pedagogies). A second major theme is appropriate and responsible usage of large language models, especially in computing education. I am interested in all levels of students, from elementary to graduate, with special interest in undergraduate.	
ACADEMIC EXPERIENCE	Undergraduate Research Assistant Computer Science Education Group <i>Principal Investigator: Michael Shindler</i> – Led project on socioeconomic factors student experiences, program attrition; distributed survey, conducted compensated semi-structured interviews. – Contributed to studies on active learning in large computing theory courses. Undergraduate Research Assistant (incoming) Design and Partnership Lab <i>Principal Investigator: June Ahn</i> Peer Mentor Campuswide Honors Collegium – Mentored 3 first-year students via outreach, resources, invites, updates, tours. – Participated in quarterly mentor pedagogy meetings and planned mentee events. Undergraduate Program Assistant Information and Computer Sciences Summer Academy <i>Supervising Instructor: Michael Shindler</i>	June 2025–present UCI September 2026–present UCI July 2026–present UCI June 2026–July 2026 UCI

- Supported classes in AI/ML and cryptography for 60+ high school students.
- Supervised cohort of 150+ high school students with team of 30+ faculty, staff, and program assistants.
- Supported Python bootcamp of 50+ students.

Learning Assistant**March 2024–June 2026**

Department of Computer Science

UCI

- Worked with 60+ faculty, teaching assistants, and learning assistants to support 800+ students through active learning, advise course organization, and proctored exams.
- Lead several staff meetings and organized responsibilities for all learning assistants, hosted weekly office hours and communicated professionally with staff and students.

Drop-In Tutor**September 2025–June 2026**

Information and Computer Sciences Tutoring Center

UCI

- Tutored 60+ lower-division CS students in course material and exam review in Discrete Math, Python, Data Structures (C++), Architecture (C/ASM), Statistics.
- Maintained student check-in and check-out data needed for securing next-year funding.

TEACHING
EXPERIENCE**Instructor of Record**, University of California, Irvine

- Culturally Sustaining Pedagogy in Computing Education
Faculty Mentor: Michael Shindler

Spring 2027**Learning Assistant**, University of California, Irvine

- I&C SCI 6B: Boolean Logic and Discrete Structures
Supervising Instructor: Irene Gassko

Spring 2024

- I&C SCI 6D: Discrete Mathematics

*Lead Learning Assistant**Supervising Instructor: Irene Gassko***Winter 2025, Winter 2026**

- COMPSI 162: Formal Languages and Automata

*Supervising Instructor: Michael Shindler***Spring 2026****Undergraduate Program Assistant**, University of California, Irvine

- Cryptography and Cybersecurity
Supervising Instructor: Michael Shindler

Summer 2026

- Artificial Intelligence and Machine Learning

*Supervising Instructor: Michael Shindler***Summer 2026**PROFESSIONAL
ACTIVITIES AND
OUTREACH**Phi Beta Kappa****2026–present**

- Mu Chapter of California, member

2026–present**Consortium for Computing Sciences in Colleges****2026–present**

- Southwest Region, member

2026–present**Outreach**

- Panelist, Information and Computer Sciences Majors Presentation
Information and Computer Sciences Summer Academy

July 2026

UCI

- Volunteer, Professional Development Fair

*Soñando Sin Miedo***April 2026**

Santa Fe Springs, CA

SKILLS

Languages—Native in English. Literate and proficient in Spanish.

Programming—Advanced in Python (Flask, Numpy, Sklearn, Matplotlib), C/C++, and HTML. Proficient in Java, PHP, JavaScript (p5.js, Next.js), CSS, Markdown, Git, Vercel, L^AT_EX, and MATHEMATICA. Experience in Bash, SQL, C#, Kotlin, R, MIPS, and Excel. Proficient user of Linux and Windows.

Projects—A list of all programming projects and games can be found at roseewater.com/projects. Notably, I have collaborated on several games as a writer or programmer through the Video Game Development Club at UCI. I maintain a set of course reference notes at roseewater.com/resources.

HONORS AND AWARDS

Dean's Honor List, University of California, Irvine **2023–present**
Every quarter since matriculation.

Poster Presentation Finalist, UCI Undergraduate Research Symposium (UROP) **2026**
For Publication 4.

Research Experience Fellow, University of California, Irvine **2025–2026**
\$365 grant from the Undergraduate Research Opportunities Program for Publications 4 and 6.

Third Place Winner, ZotHacks, UCI **2024**
For UCISseek.

Nora Folkenflik Memorial Essay Nominee, University of California, Irvine **2024**
For honors coursework “My Eyes Are Up Here: Insistent Subjectification in Carrie Mae Weems’s A Veiled Woman.”

CERTIFICATIONS

Social/Behavioral Investigators Certification **May 2026**
 Collaborative Institutional Training Initiative UCI

Certified Learning Assistant Program **July 2024**
 Division of Teaching Excellence and Innovation UCI

California State Seal of Biliteracy **May 2023**
 California Department of Education West Campus
English and Spanish

PUBLICATIONS IN PROGRESS

7. **Rose Enos**, Julia Nguyen, Nero Li, Sandra Batista, Stephen Sher, Michael Shindler. 2027. Economic Challenges, Social Support, Cultural Formations: A Mixed-Methods Exploration of Behavioral, Emotional, and Cognitive Learning Engagement among Continuing Computing Students. *23rd Association for Computing Machinery Conference on International Computing Education Research (ICER)*. In preparation.

SUBMITTED PUBLICATIONS

6. **Rose Enos**, Julia Nguyen, Nero Li, Sandra Batista, Stephen Sher, Michael Shindler. 2026. “Just try to practice more”: Challenges to Social Support Provisions among Continuing CS Students. *58th Association for Computing Machinery Technical Symposium on Computer Science Education (SIGCSE)*. Under review.
5. Nero Li, **Rose Enos**, Shion Fukuzawa, David Joves, Julia Nguyen, Sandra Batista, Michael Shindler. 2026. A Case Study of Active Learning in Large Algorithms Classes. *58th Association*

for Computing Machinery Technical Symposium on Computer Science Education (SIGCSE).
Under review.

POSTERS

4. **Rose Enos**, Julia Nguyen. 2026. **Economic, Social, and Cultural Factors in Student Experiences in Upper-Division and Graduate Computer Science Programs.** *2026 University of California, Irvine Undergraduate Research Symposium (UROP).*

LIGHTNING TALKS

3. **Rose Enos**. 2026. **Writing Better Papers: Research as Protagonistic Literature.** *19th Consortium for Computing Sciences in Colleges Southwest Region Conference (CCSC-SW).*
2. **Rose Enos**, Julia Nguyen. 2026. **Economic, Social, and Cultural Factors in Student Experiences in Upper-Division and Graduate Computer Science Programs.** *19th Consortium for Computing Sciences in Colleges Southwest Region Conference (CCSC-SW).*

UNREFEREED
JOURNAL ARTICLES

1. **Rose Enos**. 2026. **Notes on Finite-State Discrete-Time Markov Chains.** *University of California, Irvine Undergraduate Mathematics Committee Student Journal (UMC)*, vol. 0, no. 1.

NON-ACADEMIC
EXPERIENCE

Designer and Website Developer Soñando Sin Miedo	January 2026–present Remote
– Biweekly Agile sprints on a 6-person team for design, implementation, and communication with other teams. – Non-profit reaching 1,000+ first-generation, low-income high-school students with college application and scholarship support.	
Writer and Programmer Video Game Development Club	January 2024–December 2025 UCI
– Weekly Agile sprints for 4 quarterly software releases, 5,000+ words written. – Collaborated with teams of 10–15 with production, audio, design, art departments.	
Writer Her Campus	October 2023–June 2025 UCI
– Met deadlines for semi-quarterly article publication on issues relevant to college women. – Wrote 8 articles about college experience, critical theory, and media analysis.	
Editor Morning Sign Out	May 2024–November 2024 UCI
– Met deadlines for quarterly article publication on medical research for lay audience. – Improved article flow, organization, understandability; fact checked; copyedited.
