# Rose Enos

**Contact Information**

Rose Enos (she/her) enosb@uci.edu
University of California, Irvine roseeewater.com

**Education**

**B.S., Computer Science**, University of California, Irvine **June 2027**
*GPA: 3.9/4.0*

- Specialization in Intelligent Systems
- Campuswide Honors Collegium
- Information and Computer Sciences Honors Program
- Honors Thesis: Economic Challenges, Social Support, Cultural Formations: A Mixed-Methods Exploration of Behavioral, Emotional, and Cognitive Learning Engagement among Continuing Computing Students
  *Advisor: Michael Shindler*

**B.S., Mathematics**, University of California, Irvine **June 2027**
*GPA: 3.9/4.0*

- Specialization in Pure Mathematics
- Honors Program in Mathematics
- Honors Thesis: *TBD*
  *Advisor: TBD*

**High School Diploma**, West Campus High School, Sacramento, CA **June 2023**
*Valedictorian*

**Research Interests**

**Equitable and Inclusive Computing Education**: Teaching to computing students' economic, social, cultural backgrounds by identifying potential points of tension (e.g., learning engagement) and adapting student feedback into teaching practice (e.g., asset-based pedagogies). I am interested in all levels of students, with special interest in undergraduates.
**Human–AI Interaction**: Appropriate and responsible usage of LLMs, especially in computing education and the workplace.

**Academic Experience**

**Undergraduate Research Assistant** **June 2025–present**
Computer Science Education Group UCI
*Principal Investigator: Michael Shindler*

- Leads project on CS student persistence, experiences, social support; developed theoretical framework surveyed 300+ students, interviewed 10 students, thematically analyzed 25+ interviews; writes and presents at conferences.
- Analyzes and synthesizes data on active learning in large CS theory courses.

**Undergraduate Research Assistant** **September 2026–present**
Design and Partnership Lab UCI
*Principal Investigator: June Ahn*

- Maintains deadlines and professional communication around lab logistics and research projects.

**Academic Success Mentor** **September 2026–present**
Stacey Nicholas Office of Outreach, Access, and Inclusion UCI

- Provides free, one-on-one tutoring, mentorship, guidance, stategies to early CS students; follows up with repeat appointments, articulated learning outcomes, and study plans.
- Plans outreach, resource development, branding; makes announcements to lower-division lectures, reaching 600+ students per term.

**Drop-In Tutor** **September 2025–present**
Information and Computer Sciences Community for Academic Success and Achievement UCI

- Tutors CS students in programming, data structures, systems, discrete math, statistics, reaching 60+ students; maintains student check-in data that contributes to securing next-year funding.

**Peer Mentor** **July 2026–present**
Campuswide Honors Collegium UCI

- Mentors 2 first-year students one-on-one via outreach, resources, invites, updates, tours.
- Facilitated mentee event for new students with larger mentorship group.

**Undergraduate Program Assistant** **June 2026–August 2026**
Information and Computer Sciences Summer Academy UCI
*Supervising Instructor: Michael Shindler*

- Supported lectures and labs in Python, AI/ML, cryptography for 70+ high school students, many low income scholarship students; supervised capstone presentations.
- Supervised cohort of 150+ high school students with 30+ faculty, staff, and program assistants.

**Learning Assistant** **March 2024–June 2026**
Department of Computer Science UCI

- Worked with 60+ faculty, teaching assistants, learning assistants between four terms to support 800+ students through active learning, advise course organization, proctor exams.
- Led several staff meetings and organized responsibilities for learning assistants, hosted weekly office hours, communicated professionally with staff and students; offline, online, follow-up.

## Teaching Experience

**Learning Assistant**, University of California, Irvine

- I&C SCI 6B: Boolean Logic and Discrete Structures **Spring 2024**
  *Supervising Instructor: Irene Gassko*
- I&C SCI 6D: Discrete Mathematics **Winter 2025, Winter 2026**
  *Lead Learning Assistant*
  *Supervising Instructor: Irene Gassko*
- COMPSCI 162: Formal Languages and Automata **Spring 2026**
  *Supervising Instructor: Michael Shindler*

**Undergraduate Program Assistant**, University of California, Irvine

- Cryptography and Cybersecurity **Summer 2026**
  *Supervising Instructor: Michael Shindler*
- Artificial Intelligence and Machine Learning **Summer 2026**
  *Supervising Instructor: Michael Shindler*

## Professional Activities and Outreach

**Association for Computing Machinery** **2026–present**

- Student member 2026–present

**Phi Beta Kappa** **2026–present**

- Mu Chapter of California, member 2026–present

**Consortium for Computing Sciences in Colleges** **2026–present**

- Southwest Region, member 2026–present

**Outreach**

- Panelist, Information and Computer Sciences Majors Presentation **July 2026**
  *Information and Computer Sciences Summer Academy* UCI
- Volunteer, Professional Development Fair **April 2026**
  *Soñando Sin Miedo* Santa Fe Springs, CA
- Panelist, College Choices Q&A **October 2023**
  *West Campus Alumni Association* Remote

## Skills

**Languages**—Native in English. Literate and proficient in Spanish.
**Programming**—Advanced in Python (Flask, Numpy, Sklearn, Matplotlib), C/C++, and HTML. Proficient in Java, PHP, JavaScript (p5.js, Next.js), CSS, Markdown, Git, Vercel, LaTeX, and Mathematica. Experience in Bash, SQL, C#, Kotlin, R, MIPS, and Excel. Proficient user of Linux and Windows.
**Projects**—A list of all programming projects and games can be found at roseeewater.com/projects. Notably, I have collaborated on several games as a writer or programmer through the Video Game Development Club at UCI. I also maintain a set of course reference notes on computing and math.

## Honors and Awards

**Howard Tucker Award in Mathematics**, University of California, Irvine **2026**
*$1,500 departmental scholarship.*

**Dean's Honor List**, University of California, Irvine **2023–present**
*Every quarter.*

**Poster Presentation Finalist**, UCI Undergraduate Research Symposium (UROP) **2026**
*For Publication 4.*

**Research Experience Fellow**, University of California, Irvine **2025–2026**
*$365 grant from the Undergraduate Research Opportunities Program for Publications 4 and 7.*

**Third Place Winner**, ZotHacks, UCI **2024**
*For UCISeek.*

**Nora Folkenflik Memorial Essay Nominee**, University of California, Irvine **2024**
*For honors coursework "My Eyes Are Up Here: Insistent Subjectification in Carrie Mae Weems's A Veiled Woman."*

## Certifications

**Social/Behavioral Investigators Certification** **May 2026**
Collaborative Institutional Training Initiative UCI

**Certified Learning Assistant Program** **July 2024**
Division of Teaching Excellence and Innovation UCI

**California State Seal of Biliteracy** **May 2023**
California Department of Education West Campus
*English and Spanish*

## Publications in Progress

7. **Rose Enos**,* Julia Nguyen,* Nero Li, Sandra Batista, Stephen Sher, Michael Shindler. 2027. "Just try to practice more": Challenges to Social Support Provisions among Continuing CS Students. In *Proceedings of the 23rd Association for Computing Machinery Conference on International Computing Education Research (ICER '27)*. In preparation.
6. **Rose Enos**,* Julia Nguyen,* Johnathan Thar. 2027. Economic, Social, and Cultural Factors in Continuing Computing Student Experiences. *58th Association for Computing Machinery Technical Symposium on Computer Science Education (SIGCSE '27)*. Poster. In preparation.

## Conference Proceedings

5. Nero Li, **Rose Enos**, Shion Fukuzawa, David Joves, Julia Nguyen, Sandra Batista, Michael Shindler. 2027. A Case Study of Active Learning in Large Algorithms Classes. In *Proceedings of the 58th Association for Computing Machinery Technical Symposium on Computer Science Education (SIGCSE '27)*.

## Posters

4. **Rose Enos**,* Julia Nguyen.* 2026. Economic, Social, and Cultural Factors in Student Experiences in Upper-Division and Graduate Computer Science Programs. *2026 University of California, Irvine Undergraduate Research Symposium (UROP '26)*.

## Lightning Talks

3. **Rose Enos**. 2026. Writing Better Papers: Research as Protagonistic Literature. *19th Consortium for Computing Sciences in Colleges Southwest Region Conference (CCSC-SW '26)*.
2. **Rose Enos**,* Julia Nguyen.* 2026. Economic, Social, and Cultural Factors in Student Experiences in Upper-Division and Graduate Computer Science Programs. *19th Consortium for Computing Sciences in Colleges Southwest Region Conference (CCSC-SW '26)*.

## Unrefereed Journal Articles

1. **Rose Enos**. 2026. Notes on Finite-State Discrete-Time Markov Chains. *University of California, Irvine Undergraduate Mathematics Committee Student Journal (UMC)*, vol. 0, no. 1.

## Non-Academic Experience

**Designer and Website Developer** **January 2026–present**
Soñando Sin Miedo Remote

- Biweekly Agile sprints on a 6-person team for design, implementation, inter-team comms.
- Non-profit reaching 1,000+ first-generation, low-income high-school students with college application and scholarship support; volunteered at bilingual career resources fair.

**Writer and Programmer** **January 2024–December 2025**
Video Game Development Club UCI

- Weekly Agile sprints for 4 quarterly software releases, 5,000+ words written.
- Collaborated with teams of 10–15 with production, audio, design, art departments.

**Writer** **October 2023–June 2025**
Her Campus UCI

- Met deadlines for semi-quarterly article publication on issues relevant to college women.
- Wrote 8 articles about college experience, critical theory, and media analysis.

**Editor** **May 2024–November 2024**
Morning Sign Out UCI

- Met deadlines for quarterly article publication on medical research for lay audience.
- Improved article flow, organization, understandability; fact checked; copyedited.
